

U-Stand-1020 U-Shape Monitor Stand for 10.1" Monitors 1020 1022 1029 Series

Description

U-Shape Monitor Stand for 1020, 1022, 1029 Series 10.1" Monitors.

Xenarc Technologies Corporation does everything possible for the convenience of its customers, so we developed a **10.1" monitor stand** with a unique **U-shape**. This U-shape monitor stand has

many advantages such as the ease of adjusting the U-shape monitor stand height, the ease of rotating your rugged monitor 360 Degrees which is a huge advantage when working in a variety of spheres.

Strength & durability is one more advantage of this **10.1" U-Shape Monitor Stand**. It reliably fixes and locks the rugged 10.1" monitor in an acceptable and convenient position fit for the user and reduces the risk of accidental falling of the device.

When the rugged **10.1" monitor** is securely fastened in such a tough and rugged U-shape monitor stand, you can stop being afraid of jolts and strong vibrations, which makes this U-shape monitor stand truly universal even in areas with increased seismic activity. The **U-shape stand** is suitable for displays with a diagonal touchscreen of 10.1, namely for models 1020, 1022 and 1029 series. If you are the owner of a display from the previously mentioned lines, then you can add to your workplace this truly excellent U-shape stand.
